NVIDIA Jetson Orin™ Nano / Orin™ NX

The reComputer Classic is a compact edge AI device powered by NVIDIA Jetson Orin Series SoM, delivering 20-100 TOPS and pre-loaded with JetPack 5.1 and 128GB SSD. It supports generative AI at the edge, multi-stream video analytics, and rapid deployment of models like LLaVA and YOLOv8 via jetson-examples.

Feature

Note:

- The wireless modules you choose like Wi-Fi and LTE modules will not be installed by Seeed. You will have to install the modules and antennas by yourselves. If you have batch orders which need the modules and antennas to be installed from factory, please contact odm@seeed.cc.
- 128GB SSD is included by default. For optimal performance with reComputer, we recommend using **256GB** / **512GB** / **1TB** / **2TB** NVMe SSDs from Seeed. Since some SSDs on the market may only be compatible with specific JetPack versions, which may cause the device to fail to function properly. And this issue is also present with official NVIDIA dev kits.

- **Capable of Bringing Generative AI to the Edge:** Now you can build AI agents capable of processing large amounts of live or archived videos and images with Vision-Language Models (VLM) such as LLaVA, this new AI agents help nearly every industry summarize, search, and extract actionable insights from video using natural language.
- **Build Multi-streams AI Video Analytics:** For building video analytics, Jetson Orin NX incorporates the NVIDIA Multi-Standard Video Decoder. This video decoder accelerates video decode, supporting low resolution mobile content, Standard Definition (SD), High Definition (HD) and UltraHD (8K, 4K, etc.) .
- **Fastest Way to Deploy Generative AI and Computer Vision Models:** We have jetson-example (<https://github.com/Seeed-Projects/jetson-examples>) prepared for you! It offers one-line deploy projects edge AI applications of generative AI including Ollama, Llama3; computer vision including YOLOv8, and others. We have configured all environment for you to provides single command deployment of projects.
